- 2. You may use exact copies of TTB F 5100.31 in lieu of an original form. We suggest that you use an original form whenever possible. See Section IV for how to obtain a supply of forms. (paper filers only)
- 3. Generally, the person, firm, or corporation who will bottle or pack the product must file the application. However, for a product to be imported in containers intended for sale at retail, the application must be filed by the importer. In the case of a product to be relabeled by a wholesaler, the application must be filed by the wholesaler.
- 4. You must firmly affix (with glue or tape - DO NOT STAPLE) all labels that will appear on the container. Printer's proofs and photocopies are acceptable. If labels are in the form of can flats, photocopies are requested. (paper filers only)

B. SPECIFIC INSTRUCTIONS

- ITEM 1. Include a third party representative ID Number if your application will be submitted by a third party representative, and if you consent to the disclosure of information about the application to this representative, as well as the return of the processed application to this representative. Third party filers who do not already have a Representative ID Number, please contact TTB to obtain one. (See section IV for contact information.)

If you intend to bottle this product at more than one of your locations (distilled spirits and malt beverages only), show the registry number/brewer's notice number of each location where the product will be bottled. In this instance, Item 8 should reflect your principal place of business. You may also use Item 8a to reflect additional registry/brewer's notice numbers if the space provided in item 2 is insufficient. In this instance, cross out the words "Mailing Address, if different."
- ITEM 3. Indicate the source of the product by checking the appropriate box.
- ITEM 4. You must assign a sequential serial number beginning with the last two digits of the current calendar year to each application and its duplicate, not to exceed 6 characters; e.g., 12-1, 12-2, etc.
- ITEM 5. Indicate the type of product by checking the appropriate box. For Sake, check the "wine" box.
- ITEM 6. A brand name is the name under which the product is sold. If the product is not sold under a brand name, enter the name of the bottler, packer, or importer, as applicable.
- ITEM 7. A fanciful name is a name that further identifies the product and is required for some specialty products. It is optional for other products.
- ITEM 8. Indicate your company name and address exactly as they appear on your plant registry, basic permit, or brewer's notice (include your approved DBA or trade name if you use it on the label). - ITEM 9. The term "Formula" encompasses the following pre-COLA product evaluations: domestic beverage alcohol formulas, pre-import approval letters, lab analyses, and submissions formerly known as statements of process (SOPs). A formula is a quantitative list of ingredients and a step-by-step method of manufacture for alcohol beverages (wine, distilled spirits, and malt beverages) requiring approval from TTB prior to production or importation as set out in Industry Circular 2007-4. TTB's regulatory authority for such products may also be found in 27 CFR parts 4, 5, 7, 19, 24, 25, and 26. V. ALLOWABLE REVISIONS TO APPROVED LABELS

Once a label receives TTB approval, you are permitted to make certain changes to that label without submitting it to TTB. The label(s) identified on and affixed to this certificate may be revised without resubmission as follows:

NOTE: Any revision(s) you make to your approved label(s) must be in compliance with the applicable regulations in 27 CFR parts 4, 5, 7, and 16, and any other applicable provision of law or regulation, including, but not limited to, the conditions set forth in the “Comments” below.

YOU MAY...	REVISION APPLIES TO			COMMENTS
	WINE	DISTILLED SPIRITS	MALT BEVERAGE	
1. Delete any non-mandatory label information, including text, illustrations, graphics, etc.	YES	YES	YES	If the non-mandatory information in question relates to other information that remains on the label, it is your responsibility to ensure that the remaining information is not misleading after the deletion.
2. Reposition any label information, including text, illustrations, graphics, etc.	YES	YES	YES	The repositioning must comply with any placement requirements applicable to mandatory information. For example, some types of mandatory information must appear on the brand label or must appear together with other label information.
3. Change the color(s) (background and text), shape and proportionate size of labels. Change the type size and font, and make appropriate changes to the spelling (including punctuation marks, changing letters from upper case to lower case and vice versa, and abbreviations) of words, in compliance with the regulations. Change from an adhesive label to one where label information is etched, painted or printed directly on the container and vice versa.	YES	YES	YES	All mandatory information must be readily legible and appear on a contrasting background. If you received approval for a single label then you may not divide the label into multiple labels without re-approval. All changes must comply with applicable regulations, and changes in spelling (including punctuation marks and abbreviations) must not change the meaning of the previously approved information.
4. Change the stated percentages for blends of grape varieties and appellations of origin for wine labels.	YES	N/A	N/A	When used for any of these items, the total percentages for each element must equal 100%. You may not change the name of the stated varieties or appellations without submitting a new application.
5. Add, change or delete a vintage date for wine labels.	YES	N/A	N/A	If the vintage date is deleted, no reference to “ <i>Vintage</i> ” may be made on any label or other materials (e.g., caps, capsules, corks, etc.) affixed to the bottle. When adding a new vintage date, you must comply with all applicable regulations, including the requirements regarding appellations of origin.
6. Change the optional “produced” or “made” by statements on wine labels to “blended,” “vinted,” “cellared” or “prepared” by statements.	YES	N/A	N/A	
7. Add, change or delete the stated amount of acid and/or the pH level for wine labels.	YES	N/A	N/A	
8. Change the stated amounts of sugar at harvest and/or residual sugar for wine labels.	YES	N/A	N/A	See ATF Ruling 82-4 for policy regarding use of sugar content statements and when such statements are required.
9. Add or delete bonded winery or taxpaid wine bottling house number for wine labels.	YES	N/A	N/A	If used, the number must appear in direct conjunction with the bottler’s name and address.
10. Change the net contents statement.	YES	YES	YES	Revisions must comply with all applicable regulations governing net content statements and standards of fill. Please ensure that all applicable type size requirements are met for each container size.
11. Change the mandatory statement of alcohol content, as long as the change is consistent with the labeled class and type designation, and all other labeling statements.	YES	YES	YES (Flavored Malt Beverages Only)	For example, you may change the alcohol content of a grape wine labeled with a varietal designation from 13 percent to 15 percent alcohol by volume even though it results in a change to the product’s tax classification. However, if the product was designated and labeled as a “table wine,” an alcohol content of 15 percent alcohol by volume would be inconsistent with the rules for use of that designation, so this change would not be permitted. Similarly, a label bearing a “rum” designation may not be changed to state an alcohol content of less than 40 percent alcohol by volume. The revised alcohol content statement must be consistent with all other mandatory or optional labeling statements.
12. Add, delete, or change an optional statement of alcohol content for malt beverage labels.	N/A	N/A	YES	Malt beverages that contain alcohol derived from added flavors or other added nonbeverage ingredients (other than hops extract) containing alcohol are subject to mandatory alcohol content statement requirements.
13. Change the statement of percentage of neutral spirits and the name of the commodity from which a distilled spirit is produced.	N/A	YES	N/A	These changes must not result in a change to the class or type designation of the distilled spirits product.
14. Change the mandatory age statement, or delete or change an optional age statement for distilled spirits labels.	N/A	YES	N/A	These changes must not result in a change to the class or type designation. See 27 CFR 5.22 and 5.40 for further information about age statements and minimum aging requirements applicable to certain classes and types of spirits.
15. Delete or change an optional age statement, including a barrel aging statement, for wine and malt beverage labels.	YES	N/A	YES	Statements of age on wine labels must comply with 27 CFR 4.39(b).
16. Add, delete, or change statements or information in order to comply with the requirements of the State in which the malt beverage is to be sold.	N/A	N/A	YES	Applies only to malt beverages sold in that particular state (including the District of Columbia or the Commonwealth of Puerto Rico).
17. Add a new Serving Facts statement or statement of average analysis, add a Serving Facts statement to replace a statement of average analysis, or change the numerical values for calories, carbohydrates, protein, and fat contained in an existing statement.	YES	YES	YES	The statement must be in compliance with TTB Ruling 2013-2 and TTB Ruling 2004-1. A new Serving Facts statement is an allowable revision only if it is in one of the formats that is set forth in the examples attached to TTB Ruling 2013-2.
18. Add, delete, or change stated bottling date, production date (day, month, and/or year) or freshness information including bottling, production or expiration dates or codes.	YES	YES	YES	Bottling dates added to wine labels must comply with 27 CFR 4.39(c).
19. Change the name or trade name to reflect a different name already approved for use by the responsible bonded wine cellar, taxpaid wine bottling house, distilled spirits plant, brewery, or importer. Change the address where it is within the same State.	YES	YES	YES	This means that a bonded wine cellar, taxpaid wine bottling house, distilled spirits plant, brewery or importer may revise the label to include the use of a name or trade name that is already approved for that particular industry member. The name or trade name must appear on the basic permit, brewer’s notice, or other qualifying documents for the company to whom the original certificate was issued. If the name or trade name is also used as the brand name on the label, resulting in a change of brand name, you must submit a new application. The change in address is ONLY allowed for in-state moves or other changes to the COLA holder’s address that have already been reflected on the industry member’s basic permit, brewer’s notice, or other qualifying documents.
20. Add, delete, or change the name and/or address of the foreign producer, bottler, or shipper.	YES	YES	YES	The producer, bottler, or shipper must be located in the same country originally shown.

29. Delete or change promotional sponsorship-themed graphics, logos, artwork, dates, event locations and/or other sponsorship-related information. (Examples: sports leagues, team organizations, annual sporting events, and annual or semi-annual festivals.) Delete or change charitable endorsement information to include information about the proceeds.	YES	YES	YES	If authorization by a third party was required for use of such promotional sponsorship-themed information on a label when first approved, it is the responsibility of the industry member to have any necessary documentation of authorization to cover the revisions to the approved label(s). The labeling statements may not create a misleading impression.
30. Add, delete, or change a label or sticker that provides information about a rating or recognition provided by an organization (e.g., "Recognized as one of the top values in vodka by x Magazine" or "Rated as the best 2012 wine by x Association"), as long as the rating or recognition reflects simply the opinion of the organization and does not make a specific substantive claim about the product or its competitors.	YES	YES	YES	These statements or graphics must not conflict with or qualify any mandatory information and must comply with all applicable laws and regulations. Substantive claims about the product or its competitors are not covered by this exemption.
31. Delete all organic references from the label. 32. Change an approved sulfite statement to any of these options: <i>"Contains Sulfites", "Contains (a) Sulfiting Agent(s)", "Contains [name of specific sulfating agent]", "Contains Naturally Occurring and Added Sulfites";</i> or <i>"Contains Naturally Occurring Sulfites."</i> "Sulphites" may be used in lieu of "Sulfites."	YES	YES	YES	A sulfite statement is required when sulfur dioxide or a sulfiting agent is detected at a level of 10 or more parts per million, measured as total sulfur dioxide. The statement used must accurately reflect all of the sulfur dioxide or sulfiting agent(s) present in the alcohol beverage. For wine: Any other variation of the statement or removal of the statement requires a lab analysis. For sulfite waivers, the proprietor must have proof of sample analysis from a TTB-certified laboratory or from the TTB Compliance Laboratory.
